

21st of November 2026

8th International Conference **Lektor High-Tech 2026**

High-Tech with Human Touch

Technology with a **Human Touch**
...in your classroom

CALL FOR PAPERS

VIII Konferencja LEKTOR HIGH-TECH 2026 Technologia w klasie z ludzkim obliczem

21st November 2026

The Language Centre
of Lodz University of Technology
Al. Politechniki 12, 93-590 Łódź

09:00 – 18:00
registration from 08:30

390 – 450 PLN

Who is it for?

International educational conference for:

- language instructors and foreign language teachers from primary schools, secondary schools, and higher education institutions,
- directors of educational institutions, language centres, and language schools,
- teacher trainers, educational consultants, and language coaches,
- developers of software and digital solutions for language education

#1 Invitation

We invite foreign language teachers from all types of schools, as well as university language instructors and lecturers, to join us in discussing the future of language education, sharing best practices, and exploring new opportunities offered by modern technology.

Join us at the 8th International Lektor High-Tech Conference 2026 and discover that the future of language education emerges where innovative technologies meet what no artificial intelligence can replace: the teacher's knowledge, empathy, creativity, and passion.

#2 About the Conference

8th Conference Lektor High-Tech 2026

International educational conference for foreign language lecturers and teachers

The 8th Lektor High-Tech 2026 Conference is another edition of an event dedicated to foreign language educators who wish to guide learners in consciously exploring the world while harnessing the potential of modern technologies and keeping sight of what matters most in education: the human being.

This year's conference theme, "High-Tech with Human Touch – Technology in the Classroom with a Human Face," emphasizes that in an era of rapidly developing artificial intelligence and digital tools, the learner, together with their emotions, values, and needs, remains at the centre of the educational process.

In this perspective, the teacher becomes a facilitator. Their critical thinking, analytical planning, and mindfulness create a safe environment in which technology serves as valuable support for learners rather than becoming an end in itself.

TRACK I High-Tech

Technology in Foreign Language Teaching & Learning

A thematic track devoted to the use of modern technologies in language education. We welcome presentations on practical applications of artificial intelligence, virtual reality (VR), augmented reality (AR), digital tools, educational applications, and other innovative solutions supporting teaching and learning processes.

Particularly welcome are presentations demonstrating how technology can:

- increase learner engagement and curiosity
- support the development of language digital competencies,
- facilitate teachers' work

TRACK II Human Touch

The Human Factor in Foreign Language Teaching & Learning

A thematic track devoted to the role of teachers and learners, interpersonal relationships, and creative educational solutions that make learning effective, engaging, and meaningful.

Particularly welcome are presentations related to:

- neurodiversity,
- educational neuroscience (neurolidactics),
- active learning methodologies,
- project-based learning,
- assessment and feedback

#3 Would You Like to Become a Speaker?

CALL FOR PAPERS

VIII Konferencja LEKTOR HIGH-TECH 2026 Technologia w klasie z ludzkim obliczem

We invite submissions in the following formats and thematic areas.

Regardless of the selected topic and presentation format, we encourage speakers to present practical solutions tested in everyday teaching practice that may inspire language educators representing various educational institutions and levels of education.

THEMATIC AREAS

Modern Teaching Methodology

- Active and project-based methods, including PBL methodology and project work
- Design Thinking, inquiry-based learning, workshop methodology, and creating language scenarios/simulations
- Creative problem-solving and gamification

Languages in an International Environment

- Teaching in multilingual settings
- EMI (English as a Medium of Instruction)
- Erasmus+ programmes, academic and teacher mobility, educational and methodological projects
- Cooperation between universities and schools

Teacher and Learner Well-Being

- Assessment and peer learning
- Student and teacher well-being in the age of AI, as well as other innovations strengthening the teacher's role and student engagement
- Building relationships and motivation in the language classroom

PRESENTATION FORMATS

Live Lessons

up to 45 minutes
+ 10 minutes Q&A

Presentations

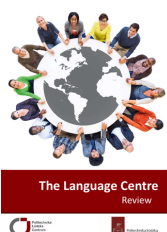

up to 30 minutes
+ 10 minutes Q&A

Poster Presentations

84,1 × 118,9 cm

Practical Workshops

up to 60 minutes

NEW!

- Expert Panel
- Publication of a Post-Conference Article in the Language Centre: Review

#4 Technicalities

VIII Konferencja LEKTOR HIGH-TECH 2026 Technologia w klasie z ludzkim obliczem
